

QC-S300 Electric Collator

Features

- Electric friction feed collator handles up to 3,900 sets (5 sheets) per hour
- Creates standard sets of up to 5 sheets (8 1/2" x 11") each
- Bins hold a 1.1" stack of paper up to 12" x 17" in size
- Handles bond, NCR, index and some coated papers
- Error detections: sensors for opacity, miss feeds, doubles and jams
- Straight and offset stacking
- Adjustable bin and separator pressure

The QC-S30 Collator is one of the worlds fastest tabletop friction feed collators and can be built into the 3-tower tabletop friction feed system. The modular design of the system allows the flexibility to expand with additional components as production needs grow. Its innovative design allow for 10, 20 and 30 stations, offers speed and quality construction and will provide years of superior productivity and reliability. Accessories for the collator include the PS-P61 Corner Stapler and SPF9/FC-9 and F40 Bookletmakers.

Features

- Collates a variety of paper stocks at speeds up to 3,600 sets per hour
- Accomodates paper sizes of 3 3/4" x 5 7/8" up to 12 7/8" x 18 1/2"
- 275 Sheet bin capacity
- Features touch-button control panel with LED 4 digit counter
- Programming modes include preset batch, insertion and an alternate bin mode for continuous production
- Adjustable stacking table for straight or criss-cross stacking
- Extra large detachable feed trays

The FC Automatic 10-bin friction collator is a great solution for churches, schools and offices that need to produce a small volume of booklets at an inexpensive price. Paper size adjustments are quick and easy because of the self-centered paper stops. The popular sizes of 8 1/2" x 11", 8 1/2" x 14" and 11" x 17" are clearly labeled to insure the creation of professional booklets. Pictured with optional base with casters.

FC 10 Collator

DC-Micro 8 Collator

Features

- Friction feed collator handles up to 1,500 sets per hour
- Will cease activity if an incorrect set is fed, when the staple cartridge empties, or the receiving tray is full
- Bin capacity of 150 sheets
- Automatically collates and staples sheets
- Offset stacking for no-stapling mode and straight stacking for stapling mode
- LCD display with 3-digit descending counter

The DC-Micro 8 is designed to automatically collate and staple sheets at a fraction of the time to collate documents by hand. The DC-Micro 8 is fully equipped with an automatic self-setting detection system that ensures correctly collated sets every time. This small and smart collator is the perfect addition to any copy center, school, church, print shop, or small office/home office.
