Options:

- 22S-10: Replacement Blade
- 15M-20: Replacement Cutting Sticks, pkg of 8

Cut-True Cutters

8/2015

Shown with stand, included

The Formax **Cut-True 22S Electric Paper Cutter** offers precision cutting for paper stacks up to 16.9" wide. This semi-automatic cutter requires very little effort, thanks to its electronically-controlled two-button operation. Simply load a stack of paper, up to 1.75" high, secure with the geared clamp, and press the buttons to engage the hardened-steel Guillotine blade.

Accurate cutting is easy with its spindle-guided back gauge with LED digital readout and calibrated scales. These features, combined with the LED Laser Line allow operators to make fine adjustments and see exactly where the blade will cut.

The 22S doesn't sacrifice safety for accuracy. In fact, it features an electronically-controlled front safety cover, transparent rear cover, safety lock with key, blade lock, external blade depth adjustment, automatic blade return from any position, easy-to-use blade change safety tool, and a wooden paper push for safe alignment. The rugged metal stand is also included, providing a stable work surface.

The Cut-True 22S is ideal for transforming brochures, invitations and more, with crisp, accurate cuts, and is a welcome addition to print shops and in-plant finishing.

Specifications:
